ELECTRIC HOT WATER STORAGE HEATER

DOMESTIC PRESSURE TYPE

FEATURES

- Free hot water, 100% savings on electric bills
- Easy installation and multiple outlet applications
- Compact and versatile
- Various choices on size and mounting
- Minimum maintenance
- Reliable and efficient
- Safety pressure relief
- International quality and safety standards
- In-house before and after service
- Able to function with all around models
- 5 Years manufacturer warranty

Available in VERTICAL
HORIZONTAL

HEATING ELEMENT

- Model: PPS 23 to PPS 9080
- For Tank Storage and Solar Heater
- 2 1/4 BSP Screw In Type
- Stainless Steel 304 Element
- Low Watt Density And Reliable
- Voltage : 220v - 240v
- Power : 3kw / Single Phase
- Water Tank Capacity: 1000L
- Safety Auto-Cutoff, Energy-Saving Mode

STEM THERMOSTAT

- For Heating Element and Water Heater
- Temperature: 25 C to 70 C
- Watt and Voltage: 20 A, 250 V
- Weight: 0.08 KG
- Built-in electrical protection
